## EXHIBITION REGULATIONS

Salon DF Art Project, from October 1st to October 10th 2022  
at Pavillon 18 – Parc Floral de Paris

### Summary of the exhibition:

Since June 2019, strengthened by two years experiences founded on the recruitment of artists across the world and their promotion on [df-artproject.com](http://df-artproject.com), as well as its other information and communication sources, the DF ART PROJECT has decided to present a collective exhibition for the third time in Pavillon 18, an exhibition space of 360 square metres.

The objective of this event is to show the general public, the media, collectors and art fans the sheer diversity of its living visual artists who express themselves in a singular way while sharing a common vision of their art.

Figurative Destructuralism defends a view of society where the genuine possibilities of emancipation of mankind as well as the autonomy of imagination are redefined. This conceptualisation of artistic practice is based around the fragmentation of the figure and of reality, placing them in perspective, distorting them through a dynamic transformation which brings together painting, sculpture, photography, drawing, collage, digital art, performance and installation.

Created in 1969, le Parc Floral, is an official Botanical Garden of the City of Paris. It contains 35 hectares of gardens famed across the world for their environmental and natural beauty. Genuine oasis of greenery within the French capital, the park enchants a million visitors every year. Guided tours, exhibitions and festivals add rhythm to its life all year round.
